-  **3**
-  **306m² Build Size**
-  **600m² Plot Size**
-  **Pool: Yes**

This modern villa is located in Buenas Noches, one of the best areas of Estepona and only 10 minutes drive into the town centre or a 500m walk down to the beach. There are supermarkets, restaurants, several golf courses and international schools all within a short drive. It is also just 10 minutes drive to the popular Puerto de La Duquesa. Sotogrande, Marbella and Gibraltar can all be reached within 30 minutes. The newly built home sits on a 600m² south facing plot that provides privacy, all-day sun and idyllic sea and mountain views. The land behind the villa is the new Camarate Golf golf ...(Ask for More Details!)

This modern villa is located in Buenas Noches, one of the best areas of Estepona and only 10 minutes drive into the town centre or a 500m walk down to the beach. There are supermarkets, restaurants, several golf courses and international schools all within a short drive. It is also just 10 minutes drive to the popular Puerto de La Duquesa. Sotogrande, Marbella and Gibraltar can all be reached within 30 minutes. The newly built home sits on a 600m² south facing plot that provides privacy, all-day sun and idyllic sea and mountain views. The land behind the villa is the new Camarate Golf course which will guarantee future privacy and provide golf views too; adding only further to the desirability of the property. The villa itself has a built area of 306m² over 3 floors. You can enter the property from the peaceful cul-de-sac via the automatic gates (where you can keep at least 2 vehicles) or the pedestrian entrance. On this ground floor level there is a large open-plan kitchen and the main living area which boasts a 4.5m double-height ceiling and a working fireplace. This is the perfect space to entertain guests year-round and leads seamlessly onto the pool and garden area for summer soirees. There are also two guest bedrooms on this level, one with an en-suite bathroom and a separate fully equipped bathroom which doubles as a guest WC. The top floor is devoted purely to the master bedroom suite. The generously sized bedroom is complemented by a lavish en-suite bathroom and a private terrace with panoramic sea views... perfect to enjoy a morning coffee, enjoying the sunset or gazing at the stars before bed. Whilst there are a few small jobs to finish on these two floors, they will be completed before handover. The expansive basement is a blank canvas with multiple windows to provide natural light and ventilation. This space can easily be adapted to suit your needs; whether you require an extra guest bedroom, a gym, a cinema, a games room, a cellar, or any combination of these. Part of the basement could also be used to provide additional storage space. It is also worth noting that, as well as providing a luxurious lifestyle, the villa has been designed with sustainability and environmental friendliness in mind. The villa incorporates the latest qualities and features to minimize energy consumption. It even includes a water-saving mechanism that collects rainwater for garden irrigation, as well as solar panels to reduce utility bills.
