Exclusive to Villa Spain of Moraira Great location!! Villa for sale in Moraira walking distance to town and beach. Located in the Pinar del Advocat area just 1.4 km from the centre of Moraira, this villa with open views is an easy walking distance to the town and beach. A sliding vehicle gate gives access to the sloping plot with a driveway leading to an integral garage. To the left of the garage a flight of steps lead up to the main living level. Entrance to the villa is via a glazed naya leading into a lounge and dining area with beamed ceilings, pellet burner and air conditioning. The separate kitchen has a serving archway to the lounge and a door leading out to the back garden and terraced area. An inner hallway from the lounge leads to two bedrooms. Both are double although small and have fitted wardrobes. The current owners have opened up a wall in one of the bedrooms to give extra living room space but this can easily be reinstated. A family bathroom and store room complete this level. Outside the kitchen door is a utility room, a large flat terraced area with seating and at the side of the property is a storage shed. The villa can also be accessed from the road behind the property via a wooden pedestrian door with steps leading through the plot. At the same level as the garage, there is access to the guest apartment with a large bedroom with storage and shower room. The plot has space to extend and also to add a pool. The property has mains drainage would suit a buyer happy to do some renovation as the villa would benefit from some updating and extending which is reflected in the asking price.
