Twin Senses Villas - New off plan villas Ideally located on the Costa del Sol's prestigious New Golden Mile, this attractive boutique collection of 15 four bedroom private villas promises a life of luxury and ease. Each home boasts a contemporary design accented with natural materials, conveniently located close to the chic yachting marina of Puerto Banús and the exclusive seaside resort of Marbella. Twin Senses Villas offer the perfect setting for modern, exclusive living. The project, created by the architects at Atelier Lopezneiraciaurri in collaboration with the team at Avantia Promociones y Servicios, underscores the exceptional quality and innovation of this superior collection of homes, creating a benchmark for the area in private luxury villas. Spacious, airy and comfortable, the villas are conceived as two large volumes, placed one on top of the other, that ingeniously seem to slide and overlap, creating welcoming shady porches and terraces. Their design, anchored by wood-panelled sides, allows for extensive floor-to-ceiling windows that maximise natural light and views. Infused with a contemporary aesthetic, the residences boast large wrap-around terraces, as well as natural wood finishes that seamlessly connect them to the surrounding landscape, capitalising on the indoor-outdoor style of living that is so representative of Southern Spain. The open plan layout ensures effortless movement through the space, with the wide windows flooding living areas with natural light, each glance framing a unique view of the gardens. Generous-sized plots offer landscaped gardens featuring private infinity pools. They also boast that modern luxury essential, an outdoor gourmet kitchen, to take advantage of intimate evenings under the stars or entertaining friends and family in style. High-quality finishes are seen throughout, with natural stone, wooden panelling, and stainless steel used to stunning effect. These elements not only enhance the contemporary aesthetic but also imbue the spaces with warmth and sophistication, enhancing every corner of the villa. The lower ground floor is yours to customise as you wish, with an endless possibility of combinations to choose from. As well as a laundry room, two expansive spaces enjoy natural light through large windows and a skylight with views of the lush garden and a water feature bringing the sensation of the outside in. Whether it's the addition of a bedroom, private cinema, gym, playroom, bar or cellar, the potential is available in whichever configuration suits your family's lifestyle. A bathroom as well as Hammam completes this most versatile of spaces. Twin Senses Villas presents a unique opportunity to own a luxury private residence in an enviable location near golf courses, beaches, and the premier destinations of the Costa del Sol. Crafted with an emphasis on beauty, comfort, and luxury, these villas are poised to set a new standard for upscale living in the region. At the core of these villas lies a rigorous quality control process, ensuring every aspect of your home meets the highest standards. From initial design to final construction, we integrate our innovative approaches seamlessly, delivering closed and tested units that undergo intensive quality assurance. While we cherish traditional materials such as concrete, stone, steel, wood, and glass, we reimagine their application with a sophisticated industrialized touch, avoiding the imperfections of common construction practices. The New Golden Mile's fashionable reputation has flourished thanks in part to its proximity to the stylish resorts of Marbella and Puerto Banús. It can also thank Estepona, the 'Garden of the Costa Del Sol', for its surge in popularity as a prestigious destination. Twin Senses Villas is within easy reach of each of these thriving localities and yet is surrounded by nature promising a tranquil environment of peace and laid-back living. The enviable Costa del Sol climate that sees the sunshine for 320 days a year on average can be enjoyed whatever the season on the long, golden beaches that lay within walking distance. Situated in the heart of the El Campanario residential urbanisation, Twin Senses Villas are in a privileged position steps from the golf course and superior amenities of the El Campanario Golf and Country House. Even more enticing for golf enthusiasts, there are several prestigious courses within a short radius, including Atalaya Golf and Country Club, Los Flamings Golf Club and the Real Club de Guadalmina.
