Blanca Hills is a new project, consisting of 12 villas with large terraces and private gardens, located in Torreblanca, Fuengirola. This area is characterized by being quiet, however the villas will be only 1.5km from the beach, as well as halfway between Malaga and Marbella (30 perc each). The surface of the houses will vary between 210 and 268 m2, varying the size depending on the needs of the owner. One of the star characteristics of this project is that during the construction of the villas, the owner will be able to decide on many aspects of it, such as the interior design or the number ...(Ask for More Details!)

Blanca Hills is a new project, consisting of 12 villas with large terraces and private gardens, located in Torreblanca, Fuengirola. This area is characterized by being quiet, however the villas will be only 1.5km from the beach, as well as halfway between Malaga and Marbella (30 perc each). The surface of the houses will vary between 210 and 268 m², varying the size depending on the needs of the owner. One of the star characteristics of this project is that during the construction of the villas, the owner will be able to decide on many aspects of it, such as the interior design or the number of bedrooms. In addition, all the villas have magnificent views of the sea, the countryside and the mountains. The prices of the villas start at € 556.324, which is considerably lower than that of houses of similar dimensions in the area. Variations in price will depend on the owner's customization.
