The views are undeniably beautiful, and the stunning countryside surroundings offer a secluded and private retreat in nature, whilst the villa affords all the latest technology and finest design features, built with five internal gardens, and a stylish use of glass walls give the illusion that the gardens run inside the house. The floor to ceiling glass windows to the front and back of the living room recede into the walls on either side allowing the building to become one with nature, borrowing architectural cues from South American architects. This affords an abundance of real light and a beautifully breezy feel throughout the living areas. This also allows for that laid-back and sociable indoor-outdoor Andalusian lifestyle. Contemporary, cool and elegant in an unparalleled location, this villa is as unique as it is stylish. This property has truly been designed to create a lifestyle as well as a home. From this idyllic location, perched 400 metres above sea level in a haven of complete serenity and calm with commanding country, sea and mountain views, it's hard to imagine you are only a short distance from the hustle and bustle of one of the most fashionable destinations in Europe - and such is the beauty of this elite neighbourhood. With acres of unspoiled land stretching out around you, 24 hour security, within a gated complex, and a privileged position enjoying complete privacy, El Madroñal is only a short drive to the lavish marina of Puerto Banús and the happening town of Marbella. This is the only location in Europe where you can enjoy spectacular views out over Africa, surrounded by countryside, with all the amenities of the coast's glitz and glamour close at hand in a sanctuary of absolute comfort and luxury. It is therefore of little wonder that these private urbanisations are home to the world's elite; from celebrities and politicians to tycoons and royals, El Madroñal and La Zagaleta are without a doubt the most sought after addresses on the Costa del Sol.
